

PRECIOUS OPARAUGO

Web Developer | Smart Contract Developer | UI/UX Designer

preciousoparaugo2002@gmail.com | github.com/080SHIBA | +234 913 455 7894 | Lagos, Nigeria

PROFESSIONAL SUMMARY

Multidisciplinary professional who bridges research, engineering, and design to ship end-to-end digital products. Experience spans Solidity smart contract development and tokenomics design for DeFi and content-to-earn platforms, agentic AI workflow automation, and component-based UI/UX systems built in Figma. Comfortable moving between blockchain architecture, AI-assisted product design, and full-stack web development (React, Next.js, TypeScript), with additional grounding in business digitization through Odoo ERP consulting for SMEs. Known for translating complex technical concepts into usable, well-designed products, and for operating independently across research, build, and delivery.

EXPERIENCE

UI/UX Designer — *Imo Digital City*

Dec 2025 – Present

- Design user interfaces and end-to-end product experiences using Figma and component-based design systems.
- Apply AI-assisted design workflows to speed up ideation, prototyping, and iteration cycles.
- Collaborate with technical and business stakeholders to translate requirements into usable interfaces.

UI/UX Designer — *Esther's Computers*

Apr 2025 – Aug 2025

- Designed interfaces and product flows for client projects, from wireframes through high-fidelity prototypes.
- Built and maintained reusable component libraries to keep design output consistent and scalable.

Admin Secretary — *Valued Alliance Industry Limited*

Aug 2024 – Mar 2025

- Managed administrative operations, documentation, and internal coordination for the organization.
- Supported cross-departmental communication and record-keeping processes.

SELECTED PROJECTS

ShibaWrite (\$WORD) — Content-to-Earn Web3 Platform

- Built on Base Network, enabling writers to earn ERC-20 (\$WORD) tokens for content contributions.
- Delivered production-ready Solidity smart contracts and a Node.js/TypeScript backend.

Odoo ERP Business Digitization Consulting

- Advise SMEs, including retail/supermarket businesses, on Odoo ERP implementation for digitization.

UI/UX Design

- Designed a 45 screens task management app (EaseTask).
- Designed a mental health and meditation app (MindBlown).

TECHNICAL SKILLS

Blockchain & Web3: Solidity, ERC-20, OpenZeppelin, Ethereum, Sepolia Testnet, Smart Contract Design, Tokenomics, DeFi Primitives

AI & Agents: Agentic AI Systems, Prompt Engineering, AI Workflow Automation, AI-Assisted Design

Design & Tooling: Figma, Product Design Systems, Component-Based Design

Web Development: HTML, CSS, JavaScript, Next.js, TypeScript, React.js

Business Systems: Odoo ERP

EDUCATION

B.Sc. Anatomy — *Abia State University*

2020 – 2024
